Salvator LÉONARDI

Tous les effets qu'on peut obtenir de cet instrument et la manière de jouer avec le rythme du "Jazz" sont expliqués dans cette méthode.

Avec cette méthode on peut apprendre aussi la **Mandoline** et la **Mandola**.

All obtainable effects on this instrument and how to play in "Jazz" style, are explained in this tutor.

The **Mandoline** and the **Mandola** can be also learned with this Method.

Todos los efectos que se pueden obtener con este instrumento y la manera de tocar con el ritmo del "Jazz" son tratados y explicados en este método.

Este Método puede servir también á aprender la **Mandolina** y la **Mandola**.

Prix net : 20 fr. (majoration comprise)

La Banjoline et la Mandoline-Banjo

La Mandoline qui pour plusieurs raisons avait perdu sa grande vogue pendant un certain temps, est devenue à nouveau à la mode, mais sous la nouvelle forme du Banjo, et on l'appelle Banjoline et Mandoline-Banjo.

Il y a différence de forme entre ces deux instruments. La Banjoline est à fond ouvert comme le Banjo américain, et la Mandoline-Banjo est à fond fermé comme le Zither-Banjo anglais. La Mandoline-Banjo résonne plus fort que la Banjoline, mais sa sonorité est métallique.

Le modèle le plus apprécié est, sans conteste, celui à fond ouvert qu'on appelle en Angleterre BANJOLINE pour la distinguer de celui à fond fermé qu'on appelle MANDOLINE-BANJO. Cependant aux Etats-Unis d'Amérique, patrie du Banjo, comme on ne joue pas de Zither-Banjo ni de Mandoline-Banjo, on appelle MANDOLINE-BANJO ou même BANDOLINE celle à fond ouvert qui est l'unique modèle qu'on fabrique dans ce pays.

La Banjoline à cordes simples, par sa jolie et claire sonorité, lorsqu'elle est bien jouée, ressemble au pizzicato du Violon. Comme elle est plus facile à accorder et plus douce à jouer, les amateurs et les professionnels les plus réputés la préfèrent à celle à doubles-cordes.

Nous consacrons cette méthode à ce nouvel instrument, après avoir eu 22 années d'expérience comme professeur et concertiste.

En nous efforçant de la faire simple, progressive et intéressante, en alternant les exercices avec des études mélodiques et des morceaux, nous espérons que le public fera à ce nouvel ouvrage, le même accueil qu'il a déjà fait à notre méthode de Banjo que nous avons publiée en 1914.

Tous les effets qu'on peut obtenir de cet instrument et la manière de jouer en « Jazz » seront expliqués ici.

La présente méthode peut servir à enseigner ou apprendre la mandoline italienne ordinaire.

SALVATOR LÉONARDI.

The Banjoline and the Mandoline-Banjo

The Mandoline which for various reasons, lost for a time the great popularity it once enjoyed, has now come to the front again, but in the shape of a Banjo, and is named Banjoline and Mandoline-Banjo.

There is a slight difference in the make of these instruments. The Banjoline is with open back, like the american Banjo; and the Mandoline-Banjo with closed back like the english Zither-Banjo. The Mandoline-Banjo sounds louder than the Banjoline, but its sound is tinny and metallic.

The most popular pattern is without doubt the open back instrument, which in England is called Banjoline just to distinguish it from the one with the closed back which is named Mandoline-Banjo. Although the United-States of America is the home of the Banjo, the Zither-Banjo and the Mandoline-Banjo are practically unknown. The american pattern are made all with open back, and they call Mandoline-Banjo or Bandoline what we call Banjoline.

This instrument with single strings, has a nice clear sound, and when well played it resembles the Violin pizzicato. It is more simple to tune and much easier to finger. All leading amateur and professional players prefer it to the double string instrument.

I dedicate this tutor to the above named instrument, with 22 years' experience as a teacher and public performer.

In endeavouring to make it simple, progressive and interesting by easy stages of the exercises with melodial studies and pieces, I trust it will be accorded the same reception and support which was given to my Banjo tutor which I published in 1914.

All obtainable effects on this instrument, and how to play in « Jazz » style will be explained herein.

The present tutor can be used to teach or learn the ordinary Italian mandoline.

SALVATOR LÉONARDI.

La Banjolina y la Mandolina-Banjo

La Mandolina que por varias razones había perdido su gran voga desde cierto tiempo, vuelve de nuevo á la moda bajo la forma nueva del « Banjo » y la llaman « Banjolina » o « Mandolina-Banjo ».

Hay una diferencia entre la forma de estos dos instrumentos, la « Banjolina » es a fondo abierto como el « Banjo » norte-americano, y la Mandolina-Banjo es á fondo cerrado como el Zither-Banjo inglés. La Mandolina-Banjo suena mucho más que la Banjolina pero su sonoridad es demasiada metálica.

El modelo que más se usa, es sin duda ninguna el de fondo abierto que tanto en Inglaterra como en Francia lo llaman « BANJOLINA » por diferenciarlo del que tiene fondo cerrado o sea la MANDOLINA-BANJO. Sin embargo en Norte-America, patria del Banjo, donde no se toca ni el Zither-Banjo ni la Mandolina-Banjo, llaman MANDOLINA-BANJO o BANDOLINA al instrumento á fondo abierto y que es el único modelo que se fabrica en America.

El sonido de la Banjolina á cuerdas simples recuerda por su claridad y dulzura al pizzicato del Violin. Como es más facil de afinar y más suave para tocar los aficionados así como los profesionales la prefieren al de cuerdas dobles.

Veintidos años de experiencia como profesor y concertista me hacen dedicar este método al nuevo instrumento esforzándome en hacerlo sencillo, progresivo e interesante, alternando los ejercicios, con piezas y estudios melódicos, esperando que el público dispensará á este trabajo la misma acogida que dispensó á mi método de Banjo que he publicado en 1914.

Todos los efectos que se pueden obtener con este instrumento y la manera de tocar en el « Jazz » son explicados y tratados aquí.

El presente método puede servir para enseñar ó aprender la Mandolina ordinaria.

SALVATOR LÉONARDI.

2. Cordes

Le son de la Banjoline est produit par des cordes tendues appuyées sur un chevalet placé sur une peau très tendue qui en forme la table de résonnance.

Lorsque la Banjoline ou Mandoline-Banjo est à cordes doubles, on peut la monter avec les mêmes cordes que la Mandoline ordinaire. Mais lorsqu'elle est à cordes simples, il est préférable d'employer des cordes légèrement plus grosses ; nous recommandons que la 1^{re} corde soit en acier 2 1/2 ou 3, et la 2^{me} corde en acier 5.

3. Accord

La Banjoline est accordée comme le Violon ou la Mandoline, ainsi :

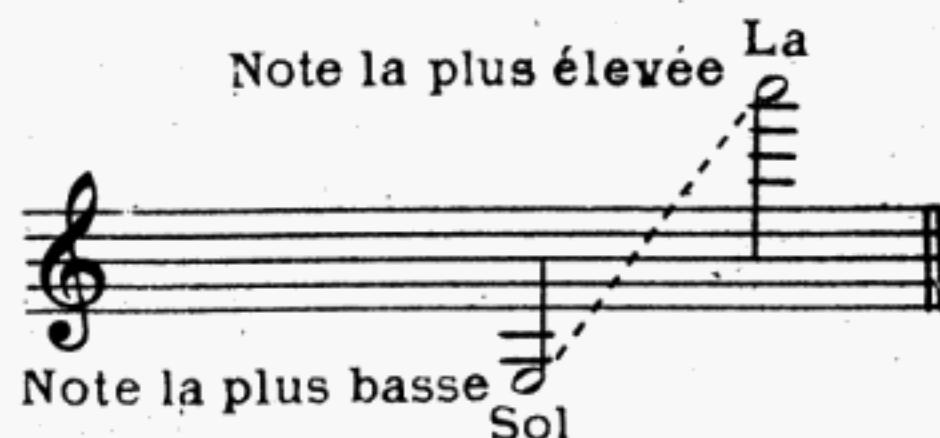

4. Manière d'accorder la Banjoline

Les commençants peuvent se servir d'un piano, ou à défaut, d'un diapason à vent ayant les quatre sons des cordes à vide de la Mandoline. Si on a seulement comme diapason le LA, il faut accorder la 2^{me} corde à l'unisson, ensuite pressez cette corde à la 7^{me} case, qui produit la note MI. Accordez la 1^{re} corde à l'unisson. Après pressez la même 2^{me} corde à la 5^{me} case, qui donne la note RÉ, qui sert à accorder la 3^{me} corde une octave plus bas. Enfin, pressez cette corde à la 5^{me} case. On obtient SOL, et accordez la 4^{me} corde une octave plus bas.

5. Etendue

L'étendue de la Banjoline est exactement la même que celle de la Mandoline napolitaine comprenant 17 cases.

Il y a des instruments qui ont la touche plus étendue pouvant donner des notes plus hautes. Dans la pratique on joue rarement dans ces notes aiguës, le but de la Banjoline étant d'imiter le Banjo qui a une sonorité grave.

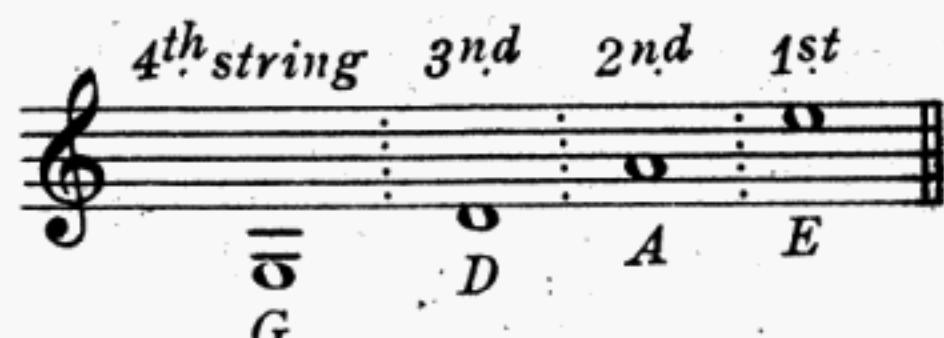

2. On stringing the Banjoline

The peculiar tone of the Banjoline is caused by strings, which are supported by a bridge, on a very tightly stretched skin or vellum which forms a sounding board.

When double strings are used as on the Mandoline-Banjo, ordinary Mandoline strings can be adapted. But for an instrument with single strings, they should be a shade stouter. I recommend that the first string (E) be of steel 2 1/2 or 3, and the second (A) of steel 5.

3. The open Strings

The Banjoline is tuned to the same notes as the Violin and Mandoline, viz :

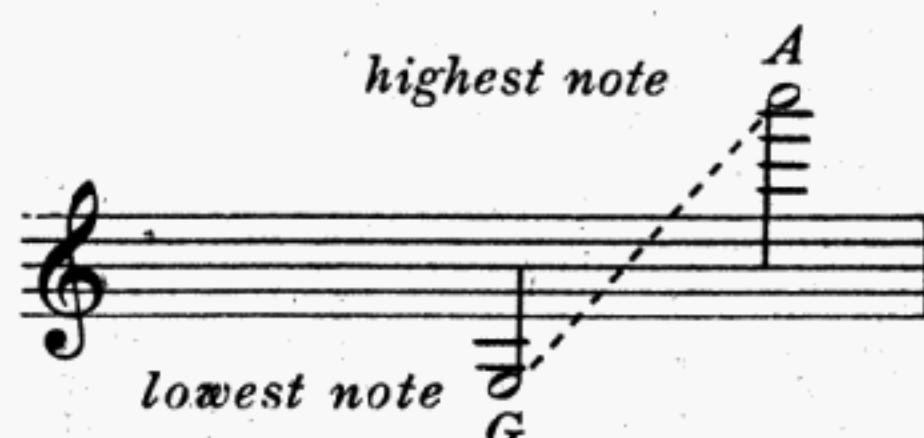

4. How to tune the Banjoline

Beginners can either tune their instrument from a Piano, or they get a pitch-pipe which gives the four actual sounds of the open strings as above. An A tuning fork can be used as follows : first tune the 2nd or A string in unison with the fork, then stop the string at the 7th fret, which produces E and tune the first string in unison. After this, stop the 2nd string at the 5th fret, which gives D then tune the 3rd string an octave lower. Stop this string at the 5th fret, which gives G and tune the 4th string an octave lower.

5. The Compass

The compass of the Banjoline is exactly the same as the Neapolitan Mandoline comprising 17 frets :

Some instruments are made with more extended fingerboards which give a higher range of notes. But these are seldom used as the aim of the Banjoline is to imitate the Banjo, which is tuned in a low pitch.

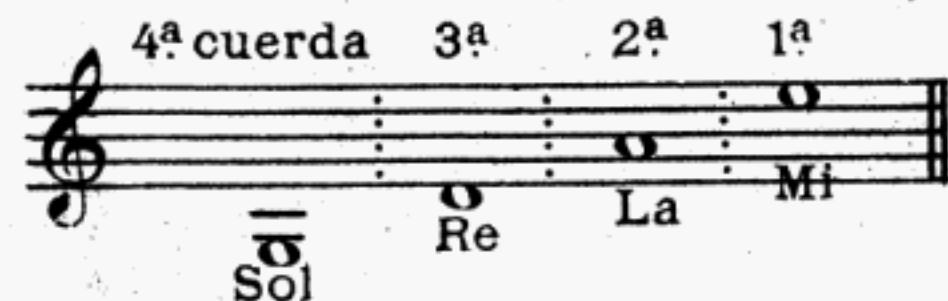

2. Cuerdas

El sonido en la « Banjolina » es producido por cuerdas tendidas y apoyadas en un puente que va colocado sobre un parche ó piel muy estirado y que forma la tabla de resonancia.

Cuando la Banjolina ó Mandolina-Banjo es á cuerdas dobles, se puede montar con las mismas cuerdas que la Mandolina ordinaria, pero si es á cuerdas sencillas es preferible emplear cuerdas más gruesas. Recomiendo que la 1^a cuerda sea de acero 2 1/2 ó 3, y la 2^a, tambien de acero 5.

3. Afinacion

La Banjolina se afina por quintas como el Violin ó la Mandolina :

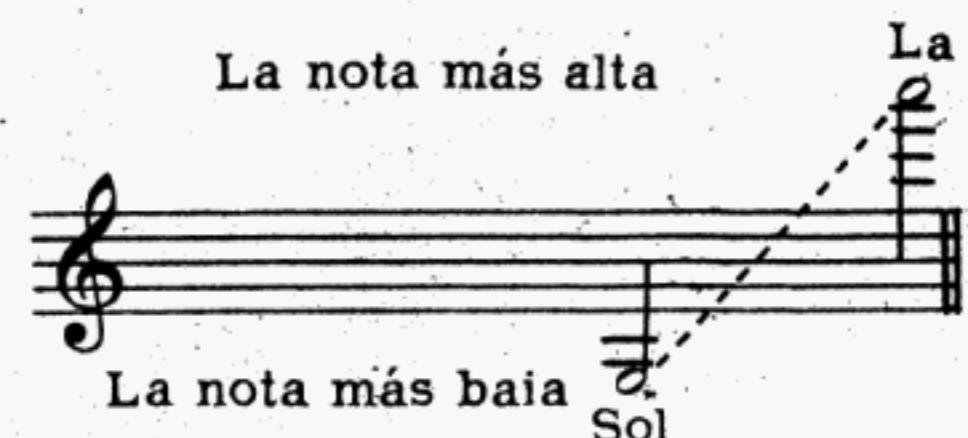

4. Manera de afinar

Los alumnos que empiezan pueden servirse del piano y á falta de ello, lo más práctico es el diapason á 4 notas que dá las notas de la Mandolina. Si el alumno dispone solamente del diapason ordinario que solo dá el « LA » afina la 2^a cuerda al unisono, enseguida apóyese esta cuerda en el 7º traste que produce la nota « MI ». Afíñese al unísono de esta nota la 1^a cuerda despues apóyese la 2^a cuerda en el 5º traste y obtendremos el « RÉ » que servira para afinar la 3^a cuerda á una octava más baja ; y para terminar apoyando en el 5º traste de la 3^a cuerda obtendremos el « SOL » con el cual afinaremos la 4^a cuerda á una octava más baja.

5. Extension

La extensión de la « Banjolina » es exactamente la misma que la de la Mandolina Napolitana ó sea de 17 trastes.

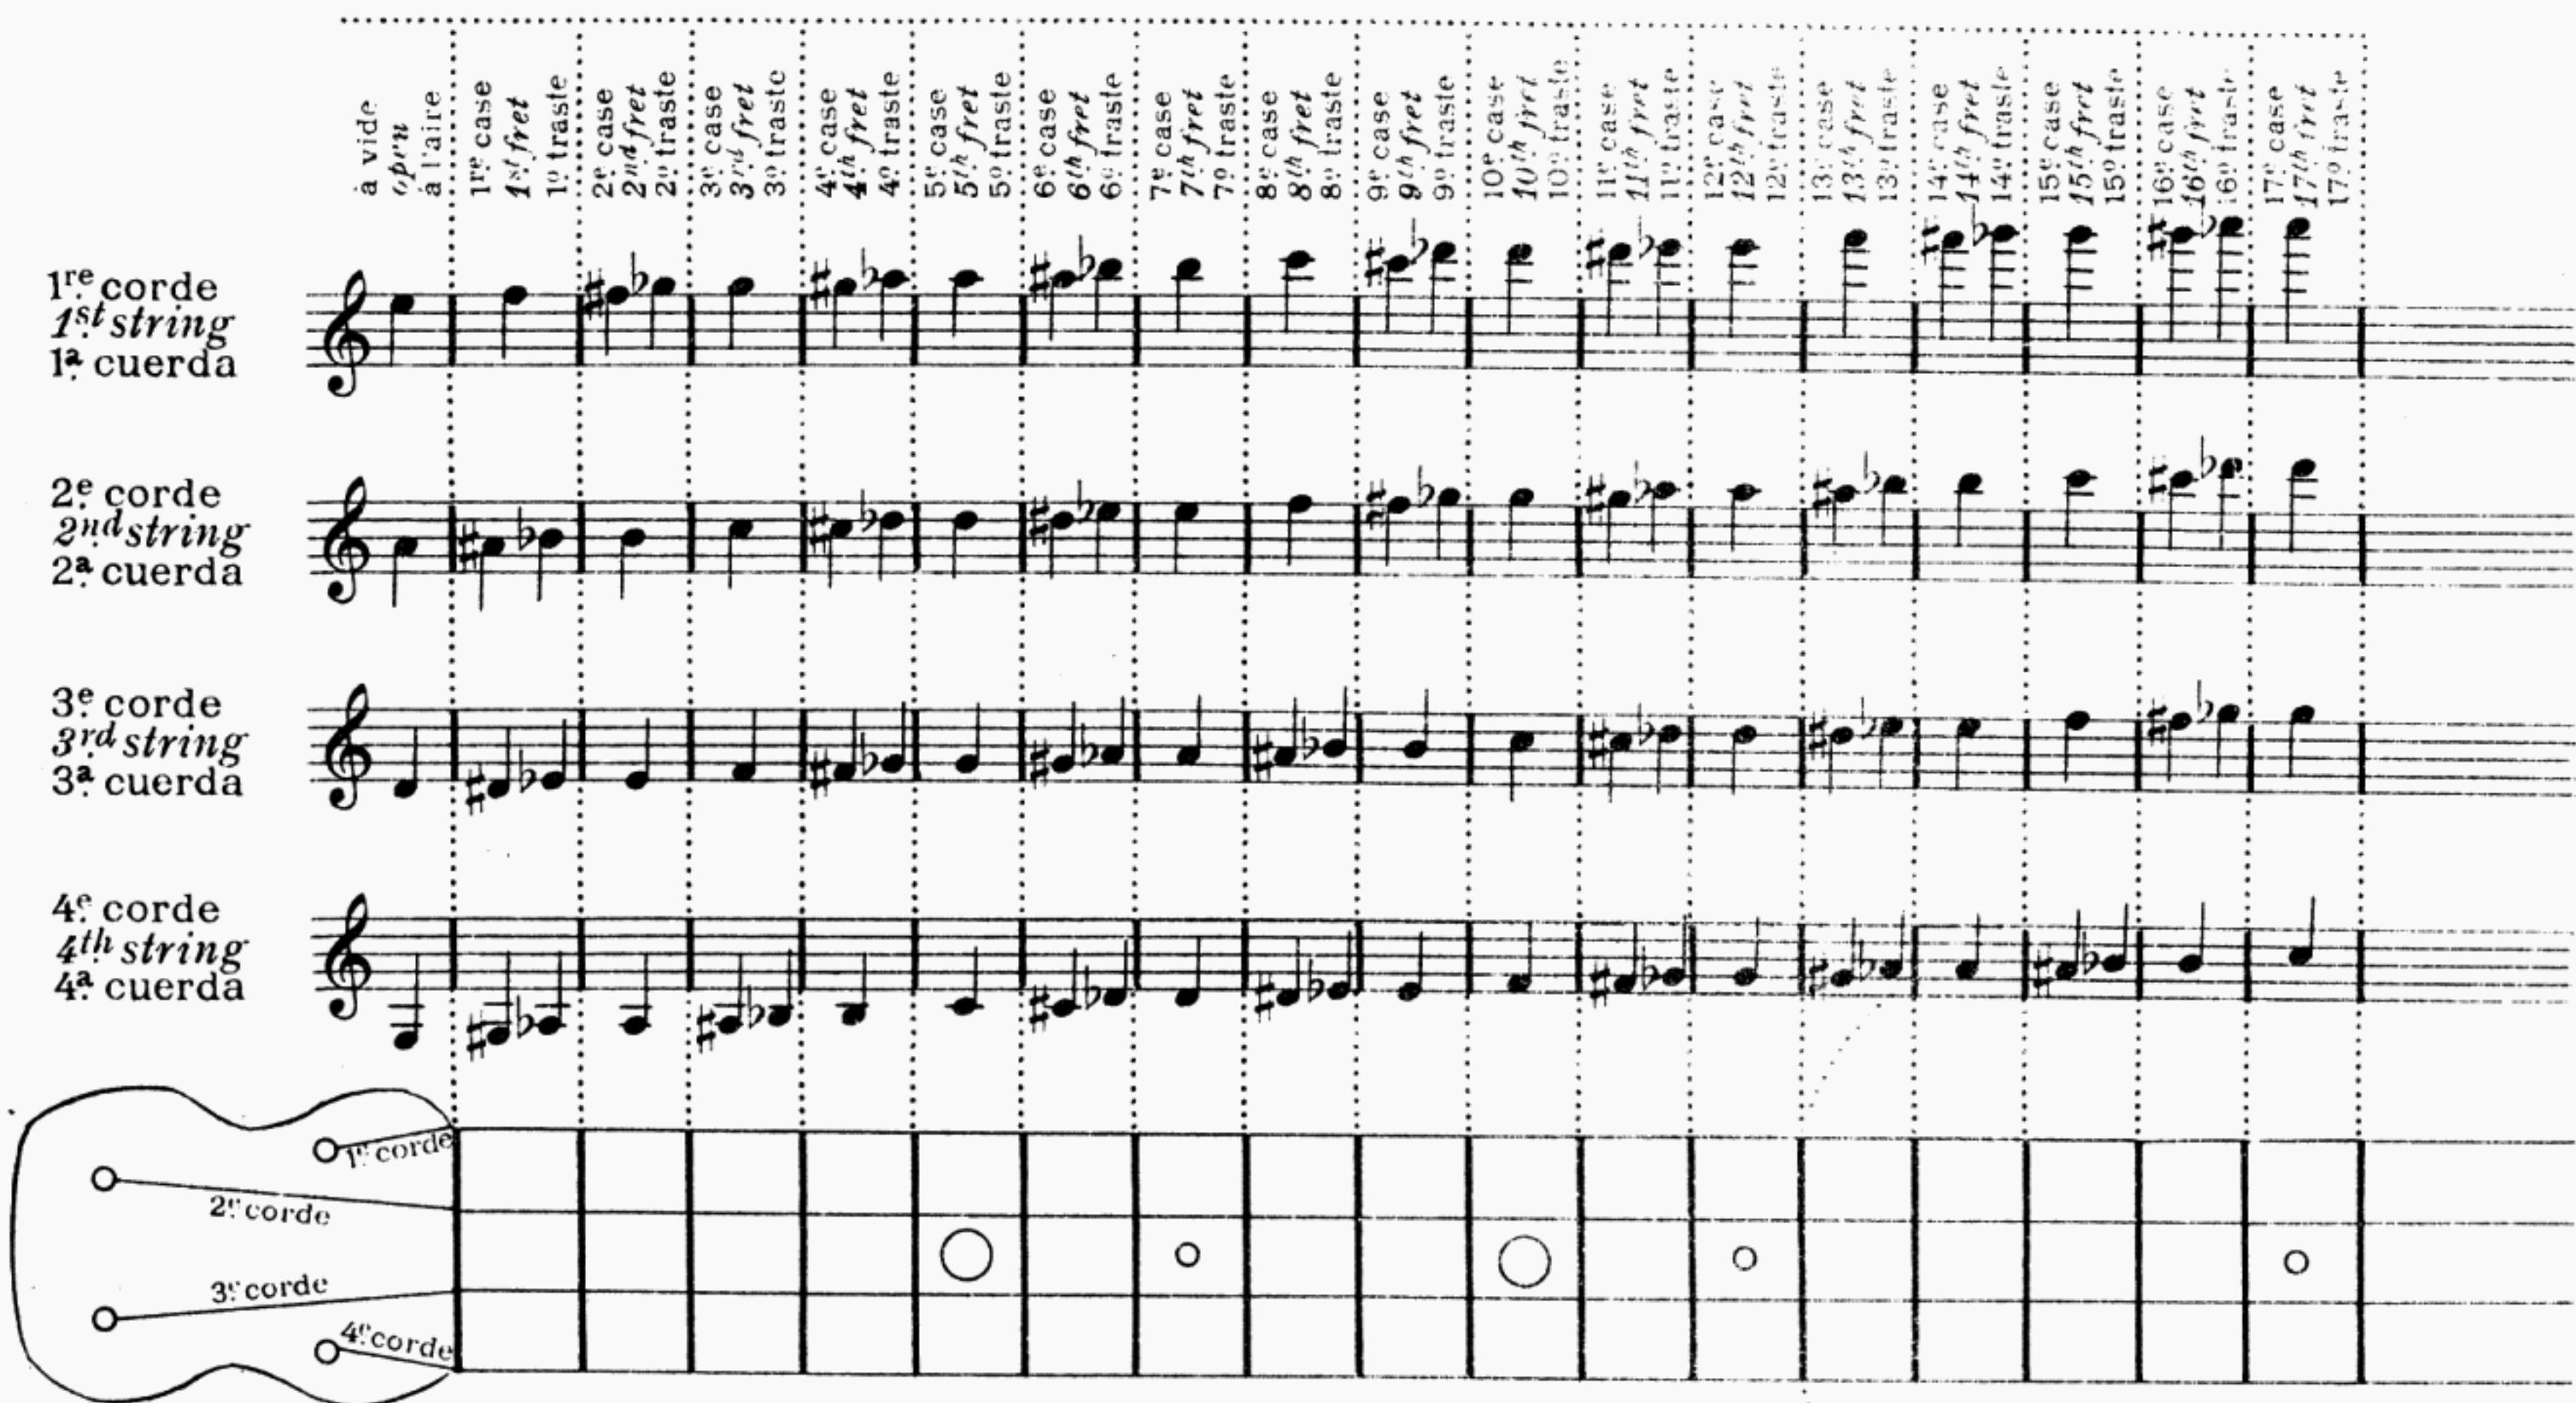

Hay instrumentos que tienen el mástil más largo y pueden por consiguiente dar notas más agudas. En la práctica se toca rara vez en el registro agudo puesto que el fin de la Banjolina es imitar el Banjo que tiene una sonoridad grave.

Abréviations employées dans cette méthode |

Abbreviations used in this tutor |

Abreviaciones empleadas en este método |

7. Tenue de la Banjoline

L'élève, étant assis, place la Banjoline sur sa jambe droite, légèrement inclinée et appuyée au corps, la tête du manche à la hauteur de l'épaule.

La main droite, pliée au poignet, tient entre le pouce et l'index le médiautor, petit morceau d'écaille de forme ovale, spécialement fabriqué pour cet usage. Elle frappe les cordes en un mouvement de va-et-vient.

La main gauche tient le manche de la Banjoline entre le pouce et l'index, exactement entre la jointure des 1^{re} et 2^{me} phalanges du pouce et la jointure des 3^{me} et 4^{me} phalanges de l'index, sans crispation et en évitant de toucher le manche avec la paume de la main. Les doigts bien recourbés doivent être employés de la manière suivante :

<i>L'index</i>	<i>aux 1^{re} et 2^{me} cases</i>
<i>Le médius</i>	<i>» 3^{me} et 4^{me} »</i>
<i>L'annulaire</i>	<i>» 5^{me} et 6^{me} »</i>
<i>Le petit doigt</i>	<i>» 7^{me} et 8^{me} »</i>

La main se trouve ainsi placée à la 1^{re} position. Si nous avons des notes plus élevées, nous devrons mouvoir la main le long du manche dans les différentes positions. Nous en parlerons avec plus de détails ci-après.

8. Manière d'obtenir un bon coup de médiautor

Les notes brèves ou rapides sont exécutées par simples coups dits « détachés ». Les notes longues ou liées par séries de coups répétés et serrés dans un mouvement rapide de va-et-vient, qu'on appelle « trémolo ».

Pour avoir un bon « trémolo », il ne faut pas essayer de le faire tout de suite en commençant (comme il est indiqué dans certaines méthodes), mais on doit tâcher de l'obtenir par l'étude progressive, comme nous l'indiquons, procédé qui nous a donné par expérience les meilleurs résultats.

Nous commençons donc par une première série de leçons à 2 coups par temps pour nous assurer une bonne position des mains et du médiautor. Nous continuons par une deuxième série de leçons à 4 coups par temps, et ensuite nous entreprendrons les leçons à 8 coups par temps. Si tout cela est attentivement travaillé du poignet sans rigidité du bras, il en résultera un trémolo fin, léger et naturel.

Pendant ce temps nous ne négligeons pas d'intercaler des leçons des différents coups du « détaché » (notes jouées à coups simples), ce qui est très important et nécessaire pour une brillante exécution des passages rapides et pour le développement du doigté de la main gauche.

7. On holding the Banjoline

The pupil being seated, should place the instrument on the right leg slightly inclined towards the body, the head of the neck reaching to the left shoulder.

The right hand bent at the wrist holds the plectrum, a small piece of tortoise shell in oval shape, specially made, between the thumb and 1st finger, striking the strings in an up and down movement.

The left hand holds the neck of the Banjoline between the thumb and first finger, exactly at the 1st and 2nd joint of the thumb, and 3rd and 4th joint of the first finger, rather firm. Care should be taken to avoid touching the neck with the palm of the hand, the fingers well bent should be employed as follows.

<i>The 1st finger for the 1st and 2nd fret</i>
<i>» 2nd » » 3rd and 4th »</i>
<i>» 3rd » » 5th and 6th »</i>
<i>» 4th » » 7th and 8th »</i>

The above gives the position of the hand in the 1st position. When we have to play higher notes the hand moves downwards in different positions. This will be explained fully later on in this tutor.

8. How to use the Plectrum

Short and rapid notes are played by single strokes of the plectrum called « staccato ». Long sustained notes are played by the « tremolo » which is obtained by series of rapid down and up strokes.

The pupil will be well advised not to attempt the « tremolo » movement to begin with (as indicated in some Mandoline tutors) but by gradual progressive practise, which my long experience has proved to obtain the very best results.

We will now commence with the first series of lessons, by giving two strokes of the plectrum to a beat, slowly, in order to ensure the correct position of the hands also the plectrum. We shall continue with a second series of lessons by giving 4 strokes of the plectrum to a beat to be followed by lessons at 8 strokes to a beat, and if this is carefully practised from the wrist without any stiffness of the arm it will result in a fine, light and natural « tremolo ».

Meanwhile we will not neglect to have various lessons on « staccato » (single strokes of the plectrum) which is very important and necessary for a brilliant execution of rapid passages, and development of the left hand.

7. Posicion para tocar la Banjolina

El alumno estando sentado coloca la « Banjolina » sobre la pierna derecha ligeramente inclinada y apoyada al cuerpo quedando el clavijero á la altura del hombro.

La mano derecha dobrada en la muñeca, sostiene entre el pulgar y el indice la « púa » pequeña lamina de concha en forma ovalada especialmente fabricada con la cual se puentean las cuerdas en un movimiento de bajar y subir.

La mano izquierda sostiene el mastil de la Banjolina entre el pulgar y el indice, exactamente entre la juntura de la 1^{ra} y la 2^a falange del pulgar y la 3^a y 4^a falange del indice sin que por esto la mano este crispada y evitando que el mastil descance en la palma de la mano. Los dedos bien encorvados se deben colocar de la manera siguiente :

<i>El indice al 1^o y 2^o traste</i>
<i>El medium al 3^o y 4^o »</i>
<i>El anular al 5^o y 6^o »</i>
<i>El menique al 7^o y 8^o »</i>

La mano colocada de esta manera se encuentra en 1^a posición. Si tuvieramos que tocar en registro más agudo, habría que cambiar la mano de posición es decir correr la mano más abajo más arriba á lo largo del mango segun las diferentes posiciones. De esto hablaremos con más detalles, más adelante. •

8. Manera de obtener un buen golpe de « púa »

Las notas breves ó rápidas se ejecutan por golpes simples de púa, que se llaman « destacado » ó « punteado ». Las notas largas o ligadas se ejecutan por un « trémolo » que se obtiene con un movimiento rápido de muñeca de derecha á izquierda.

Para obtener un buen « trémolo » no hay que probar de hacerlo enseguida (como está indicado en algunos métodos), hay que procurar obtenerlo de una manera progresiva, como lo indicaré más adelante por un procedimiento que su experiencia nos ha dado los mejores resultados.

Empezamos por una serie de lecciones á dos golpes de púa por tiempo para asegurarnos de una buena posición de las manos, y de la púa. Continuamos con la 2^a serie de lecciones á 4 golpes por tiempo para seguir con las lecciones de 8 golpes por tiempo. Si estas lecciones son estudiadas cuidadosamente de muñeca sin rigidez en el brazo obtendremos un trémolo fino, ligero y natural.

Mientras tanto no olvidamos de intercalar algunas lecciones de « punteado » (notas tocadas á golpes sencillos) lo que es muy importante y necesario para la ejecución de los pasajes rápidos y para el desarrollo del mecanismo de la mano izquierda.

9. Signes pour le doigté

Main gauche.	Main droite.
0 signifie corde à vide.	Λ signifie coup de médiator en bas (en frappant)
1 » index.	V signifie coup de médiator en haut (en montant)
2 » médium.	
3 » annulaire.	
4 » petit doigt.	

9. Signs for the fingers

Lest hand	Right hand
0 means open string.	Λ means plectrum down stroke
1 " 1 st finger.	
2 " 2 nd "	V means plectrum up stroke
3 " 3 rd "	
4 " 4 th "	

9. Signos para los dedos

Mano izquierda	Mano derecha
0 significa cuerda al aire.	Λ significa golpe de pua hacia abajo
1 » dedo indice.	
2 » » medium.

53.. Escala en Ré menor

A musical score for a single melodic line. The top staff is in 2/4 time with a key signature of one flat. It features eighth-note patterns with slurs and grace notes. The bottom staff shows a rhythmic pattern of eighth and sixteenth notes with various note heads and stems.

And^{te} con moto

54

A musical score page featuring five staves of music. The key signature is one flat, and the time signature varies between common time and 4/4. The music consists of eighth and sixteenth note patterns. Measure 54 starts with a 4/4 time signature. Measures 55-56 start with a common time signature. Measure 57 starts with a 4/4 time signature. Measures 58-59 start with a common time signature. Measure 60 starts with a 4/4 time signature.

55.. Exercices de technique | 55.. Exercises on technique | 55.. Ejercicios de técnica

The sheet music for Exercise 55 consists of six staves of musical notation. Part (a) starts in common time with a treble clef, featuring sixteenth-note patterns with grace marks. Part (b) begins in common time with a treble clef, followed by a section in 2/4 time with a treble clef. Both sections include slurs and grace marks. Part (c) continues in common time with a treble clef, showing sixteenth-note patterns with slurs.

56.. Exercices préparatoires pour le trille | 56.. Preparatory exercises to the shake | 56.. Ejercicios preparatorios para el "trino"

The sheet music for Exercise 56 consists of three staves of musical notation. The first two staves are in common time with a treble clef, featuring sixteenth-note patterns with slurs and grace marks. The third staff begins in common time with a treble clef, showing sixteenth-note patterns with slurs.

57.. Du "Trémolo"

Maintenant l'élève pourra commencer à faire du "trémolo" dans un mouvement modéré en exécutant 8 coups par temps, c'est-à-dire 16 coups pour les blanches, 8 coups aux noires et 4 coups aux croches. Ceci n'est pas une règle définitive car on peut augmenter les coups dans un mouvement plus lent et les diminuer dans un mouvement plus vif.

57.. The "Tremolo"

The pupil can now commence the "tremolo" in a moderate movement, playing 8 strokes to a crotchet of one beat, and 16 strokes to a minim of two beats. This rule can be varied, as in a slower movement, double the number of strokes may be used and a less number in a quicker movement, according to the tempo.

57.. El "Trémolo"

Ahora el alumno podrá empezar á estudiar el "trémolo" en un movimiento moderado batiendo 8 golpes por tiempo, es decir, 16 golpes por cada blanca, 8 por cada negra y 4 por cada corchea. Esto no es una regla definitiva pues se puede aumentar el número de golpes en un movimiento lento y disminuir en un movimiento vivo.

Moderato

Écriture
Written
Escritura

Exécution
Played
Ejecución

58.. Les Croches doivent être jouées en trémolo dans un mouvement lent ou modéré et à simples coups dans un mouvement vif. (Allegro ou Allegretto ou Andante mosso.)

Andantino

58.. The Quavers must be played with tremolo in a slow or moderate movement and with single strokes in a quick movement (Allegretto or Allegro or Andante mosso.)

58.. Las Corcheas deben tocarse en trémolo cuando el movimiento es lento y á golpes sencillos si es un movimiento vivo. (Allegro, ó Allegretto ó Andante mosso.)

Allegretto

60... Nous conseillons aux élèves de vouloir bien répéter en "trémolo" les études 28, 29, 34, 44, 48, 52 et 54 qu'ils ont déjà travaillées à 4 coups par temps, et ensuite continuer avec le suivant:

Duo-Etude pour le "trémolo"

Moderato

60... I advise the pupils to practise again in "tremolo" the studies 28, 29, 34, 44, 48, 52 and 54, they have already practised at 4 strokes a beat, and then continue here with the following:

Duett study for the "Tremolo"

60... Aconsejamos á los alumnos de repasar en "trémolo" los estudios 28, 29, 34, 44, 48, 52 y 54 que hayan trabajado ya á 4 golpes por tiempo y luego continuar con el siguiente:

Duo-Estudio para el "trémolo"

61... La croche qui suit une noire pointée doit être jouée en trémolo dans un mouvement lent ou modéré et à coups simples dans un mouvement vif.

61... A quaver which follows a dotted crotchet should be played with tremolo in slow or moderate movement and with single stroke in a quick tempo.

61... La corchea que sigue á una negra con puntillo se debe tocar en trémolo cuando el movimiento es lento, y á golpe sencillo si es vivo.

Adagio

62.. DUO**62.. Duett****62.. DUO**

Moderato

63... Dans le Duo suivant les croches sont tantôt trémolées (marquées avec des liaisons) et tantôt détachées (marquées par des points sur les notes.)

63.. In the following Duett quavers are played now with tremolo (marked by ties) and now with single strokes (marked by dots above.)

63.. En el Duo siguiente las corcheas son á veces tremoladas (cuando tienen ligadura) y "punteada" ó "destacadas" (cuando hay puntos sobre las notas.)

Andante

64... Les croches pointées doivent être trémolées dans un mouvement lent ou modéré, et détachées dans un mouvement vif. La même règle doit être appliquée pour les croches suivies d'un silence, lequel, suivi d'une double-croche ou triple-croche, forme un temps.

64.. Dotted quavers should be played with tremolo in a slow or moderate tempo and with single strokes in a quick tempo. The same rule applies to quavers, which are followed by a rest with a smaller value note, making up a beat.

64.. Las corcheas con puntillo deben ser tremoladas en un movimiento lento y punteadas en un movimiento vivo. La misma regla debe ser aplicada á las corcheas seguidas de un silencio el cual, seguido de una semicorchea ó una fusa completa un tiempo.

Andante

A page of musical notation for two staves, numbered 37. The top staff uses a treble clef and the bottom staff uses an alto clef. Both staves are in common time and major key. The music consists of continuous eighth-note patterns with various slurs, grace notes, and dynamic markings like forte (f) and piano (p). The notation is dense and technical, typical of a solo piano piece.

81.-Gamme en Fa[#] mineur

81. - Scale in F[#] minor

81.-Escala en Fa# menor

A musical score for piano, featuring a single melodic line on a five-line staff. The key signature is G major (one sharp). The time signature is common time (indicated by 'c'). The melody consists of eighth and sixteenth note patterns, with several grace notes indicated by small vertical strokes. The score includes a repeat sign with a double bar line, followed by a treble clef, a sharp sign, and a 'c' for common time. The melody continues with a series of eighth-note chords and grace notes.

2e

A musical score for two staves. The top staff uses a treble clef, a key signature of two sharps, and a 2/4 time signature. It contains a melodic line with eighth and sixteenth notes, including a grace note and a sixteenth-note cluster. The bottom staff also uses a treble clef, a key signature of one sharp, and a 2/4 time signature. It contains a harmonic line with eighth and sixteenth notes, including a grace note and a sixteenth-note cluster.

A musical score for two staves. The top staff begins with a treble clef, a key signature of two sharps, and a dotted half note followed by eighth-note pairs. The bottom staff begins with a treble clef, a key signature of one sharp, and a quarter note followed by eighth-note pairs.

A musical score for piano, featuring two staves. The top staff uses a treble clef and has a key signature of four sharps. Measure 11 starts with a forte dynamic (f) and consists of eighth-note patterns. Measure 12 begins with a sixteenth-note pattern. The bottom staff uses a treble clef and has a key signature of three sharps. It features eighth-note patterns throughout both measures.

A musical score for two staves. The top staff begins with a treble clef and a key signature of two sharps. It contains six measures of music, with measure 1 consisting of a single note, measure 2 of two notes, measure 3 of a sixteenth-note pattern, measure 4 of a single note, measure 5 of a sixteenth-note pattern, and measure 6 of a single note. The bottom staff begins with a treble clef and a key signature of one sharp. It contains five measures of music, with measure 1 consisting of a sixteenth-note pattern, measure 2 of a single note, measure 3 of a sixteenth-note pattern, measure 4 of a single note, and measure 5 of a sixteenth-note pattern. Measures 1-3 of the top staff correspond to measures 1-3 of the bottom staff. Measures 4-6 of the top staff correspond to measures 4-5 of the bottom staff.

S. L. 2

83. Le «Coulé» est le passage du média tor d'une corde à l'autre sans battre une seconde fois cette dernière. On peut couler ainsi trois ou quatre cordes à la fois avec un seul coup de média tor.

83.. The «Plectrum Pass» is the gliding of the plectrum from one string to another, thus making two notes with one stroke. The Pass can also be made over three or four strings in the same manner.

83.. El «Coulé» es el pasaje con la púa de una cuerda á otra sin golpear una segunda vez. Se puede así arpegiar ó rasguear tres ó cuatro cuerdas á la vez de un solo golpe de púa.

Allegretto

Moderato

Allegro

Musical score for piano, page 94, ending 1a. The score consists of two staves. The top staff shows a treble clef, a key signature of one flat, and a 2/4 time signature. It features a series of eighth-note chords and grace notes. The bottom staff shows a bass clef and a 4/4 time signature, also featuring eighth-note chords. The score concludes with a double bar line, a repeat sign, and the instruction "2a".

D.C.

95.-Gamme en Si^b majeur

95. Scale in B^{\flat} major

95.- Escala en Si^b mayor

A musical score for piano, featuring two staves. The top staff uses a treble clef and the bottom staff uses a bass clef. The key signature is one flat. Measure 11 begins with a half note in the bass staff, followed by a eighth-note pattern of bass and treble notes. Measure 12 begins with a eighth-note pattern of bass and treble notes, followed by a half note in the bass staff.

Allegretto

A musical score for a single system, numbered 96. The key signature is one flat, and the time signature is common time (indicated by a '4'). The score consists of ten measures of music, starting with a dotted half note followed by eighth notes and sixteenth notes. Measures 2 through 10 continue this pattern of eighth and sixteenth notes, with some measure endings indicated by vertical lines.

117.- Des Positions

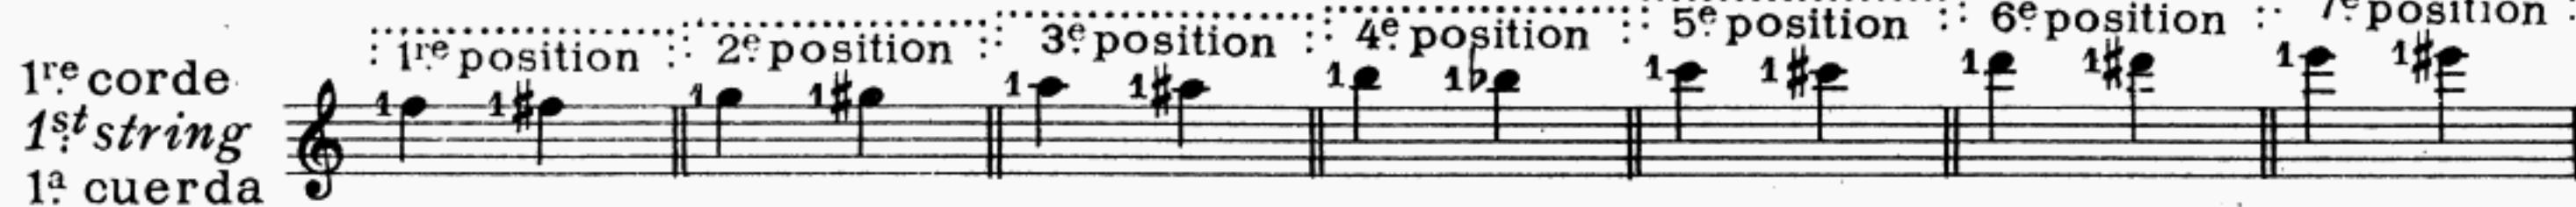

Pour jouer des notes plus élevées que celles qu'on obtient en tenant l'index à la 1^{re} ou 2^e case (1^{re} position) il est nécessaire de glisser la main le long du manche. Ce déplacement s'appelle *changement de position*.

Il y a 7 positions dans la Banjoline ou Mandoline-Banjo qui ont, comme les mandolines napolitaines, 17 cases.

Ainsi, lorsque l'index est placé sur le "sol" de la 3^e case de la 1^{re} corde la main se trouve en 2^e position.

Si on le glisse sur le "la" de la même corde (5^e case) la main se trouve en 3^e position. Cela nous donne une position par note.

Le tracé des notes suivant, indique la place des différentes positions.

Nous n'avons pas assez de place dans cette méthode pour faire une étude spéciale de chaque position mais nous nous efforcerons de les présenter par des gammes et accords d'une manière simple et pratique et nous étudierons particulièrement celles qui sont le plus employées, la 3^e et la 5^e position.

Voici la gamme de Si^b majeur avec son accord parfait. Travaillez-la bien sans jouer aucune corde à vide. Ensuite, déplacez la main de 2 cases et répétez de la même façon la gamme de Do majeur en 2^e position. Descendez la main encore de 2 cases et jouez la gamme de Ré majeur en 3^e position.

Et ainsi de suite.

117.- The Positions

For playing higher notes than those hitherto played, it is necessary to move the left hand by degrees, up the finger-board.

This is termed change of position.

There are seven positions on the Banjoline as well as on the ordinary neapolitan Mandoline, both of which have 17 frets.

When the first finger of the left hand is placed on the G of the 1st string, the hand is placed at the 2nd position.

By shifting the first finger to A on the same string the hand is placed at the 3rd position. The above gives a position for a note.

The following scheme of notes shows the fingering in different positions.

117.- De las Posiciones

Para tocar las notas mas agudas que las que se obtienen teniendo el índice en el 1º ó 2º traste (1^a posición) es necesario correr la mano á lo largo del mástil. A esto se llama *cambio de posición*.

Hay 7 posiciones en la Banjolina ó Mandolina-Banjo que tienen 17 trastes como la Mandolina napolitana.

Así cuando el índice está sobre el "sol" del 3º traste de la 1^a cuerda la mano se encuentra en 2^a posición.

Si se corre la mano hasta el "la" de la misma cuerda (5^a traste) la mano se encontrará en 3^a posición.

El trazado de notas que sigue, indica las diferentes posiciones.

No tenemos bastante sitio en este método para hacer un estudio especial de cada posición, pero nos esforzaremos en presentarlos por escalas y acordes de manera sencilla y práctica estudiando particularmente las más empleadas que son la 3^a y 5^a posiciones respectivamente.

He aquí la escala en Si^b mayor con su acorde perfecto. Estudíese bien sin tocar ninguna cuerda al aire. Despues corra la mano de dos trastes y estará en 2^a posición y repita del mismo modo la escala en Do mayor. Vuelva á correr dos trastes más y estará V. en 3^a posición tocará la escala en Ré mayor y así sucesivamente.

122.. Du Glissé

En parcourant sur la même corde le doigt d'une note à l'autre toujours en la pressant, on obtient une suite de sons chromatiques qui imitent l'infexion de la voix humaine. On appelle cela *glissé*.

L'effet est très agréable si on n'en abuse pas et si on l'emploie avec goût dans certains morceaux.

Il est indiqué par des traits inclinés ainsi — ou — ou par le mot *glissé*.

122.. The Glissé or Glide

This is obtained by pressing the finger firmly on a note and gliding it along the string without relinquishing the pressure. It gives a very pleasant chromatic effect similar to the inflexion of the human voice. It should however be used with taste and good judgment.

It is indicated by inclined line thus: — or —, or by the word glissé.

122.. Del Glisado

Resbalando el dedo sobre la misma cuerda de una nota á otra sin haber dejado de apoyarlo se obtiene una serie de tonos cromáticos que imitan las inflexiones de la voz humana. A esto se llama *glisado*, el efecto es muy agradable, siempre que no se abuse de ello, y si se emplea con gusto en ciertas piezas. Se indica por trazos inclinados así — o así — y tambien por la palabra *glissé*.

142.. Exercices pour le "Trille"

Lorsque le trille est bien acquis les autres notes d'agrément deviennent faciles. Pour y arriver travaillez les gammes de la manière suivante:

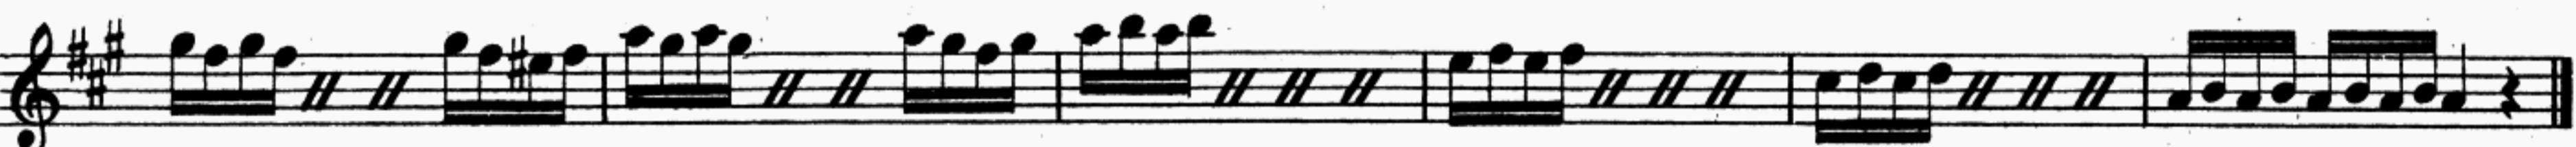

142.. Exercises for the Shake

When the shake is well acquired it will make easier the playing of all other grace notes. To obtain a good shake practise the scales in the following manner:

Presto

Presto

**143.. Gammes et Accords**

à travailler quotidiennement pour faciliter le changement de positions.

143.. Scales and Chords

to be practised daily, in order to facilitate the change of positions.

143.. Escalas y Acordes

á estudiar todos los días para facilitar el cambio de posiciones.

144.. On peut faire sur tout le manche des gammes pareilles à celles qu'on fait en La^b majeur.

144.. Scales similar to the one in A^b can be played on any part of the fingerboard.

144.. Se pueden hacer sobre todo el mástil escalas como la que se hace en La^b mayor.

145... On peut jouer avec la Banjoline presque tous les morceaux actuellement en vogue, en lisant sur la partie de piano la clé de sol, s'il n'y a pas de partie séparée pour Violon ou Mandoline. Exemple:

145... The pupil can play with the Banjoline nearly all the numbers actually in vogue by reading the treble cleff of the piano part, if there is no violon or mandoline part. Exemple:

145... Se puede tocar con la Banjolina todas las piezas actualmente en boga leyendo en la parte de piano la linea en clave de Sol sino hubiera parte separada de violin ó mandolina. Ejemplo:

CAMINANDO
TANGO

S. LÉONARDI

The sheet music consists of ten staves of musical notation. The top two staves are for the piano (treble and bass clef), and the bottom eight staves are for the banjoline (treble clef). The music is in 2/4 time. Various dynamics are indicated throughout, such as *p* (piano), *f* (forte), *ff* (double forte), and *ff* (trill). Performance instructions include slurs, grace notes, and dynamic markings like *p*, *f*, and *ff*. The piece is divided into sections labeled 'PIANO', 'BANJOLINE', and 'PIANO'. The title 'CAMINANDO' and subtitle 'TANGO' are at the top. The composer's name 'S. LÉONARDI' is on the right. The score concludes with 'FIN' and a final dynamic marking of *p*.

146.. Gamme de 3 octaves

146.. Scales of 3 octaves

146.. Escalas de 3 octavas

The sheet music consists of four staves of musical notation for a guitar. Each staff is in common time. The first three staves are in G major (one sharp), the second in A minor (one flat), and the third in B major (two sharps). The fourth staff is in C major (no sharps or flats). Fingerings are indicated above the notes in each staff.

147.. Arpèges

Les arpèges s'exécutent en coulant le médiator en bas et en haut sur trois ou quatre cordes formant des accords. Accentuez la 1^{re} note de chaque arpège.

147.. Arpeggios

The arpeggios are played by passing or gliding the plectrum down and up on three or four strings, making chords. Accentuate the first note of each stroke.

147.. Arpeggios

Los arpegios se ejecutan rasgando con la púa de arriba abajo tres o cuatro cuerdas formando el acorde. Acéntuese la primera nota de cada golpe.

This section contains two sets of arpeggio exercises. The top set is in G major (one sharp) and the bottom set is in A minor (one flat). Both sets use a 'simile' (imitation) technique, indicated by a symbol above the first measure of each set. Fingerings are provided for the first measure of each set.

150.. ROSINA, Mazurka.

This section contains the musical score for 'ROSINA, Mazurka.' in G major (one sharp). The score consists of six staves of musical notation. The first three staves begin with a 'simile' (imitation) technique, indicated by a symbol above the first measure of each set. The last three staves also begin with a 'simile' (imitation) technique. The piece concludes with a 'D.C.' (Da Capo) instruction at the end of the sixth staff.

Banjoline ou Mandoline

S. LÉONARDI

The musical score consists of 15 staves of Banjoline or Mandoline music. The key signature is mostly A major (no sharps or flats), indicated by a single sharp sign on the treble clef line. The time signature varies between common time (indicated by a 'C') and 2/4 time (indicated by a '2/4'). The music features a variety of note values, including eighth and sixteenth notes, and rests. Articulation marks such as 'tr' (trill) and 'p' (piano) are used throughout. Performance instructions like '3^e p.....' (3rd piano) and '1^a' and '2^a' indicate different endings or sections. The score begins with a dynamic 'p' (piano) and ends with a dynamic 'f' (forte). The 'TRIO' section is marked with a double bar line and a repeat sign.

154.-Du Solo

ou de la manière de jouer une mélodie et son accompagnement en même temps

Ce style très gracieux et artistique est exécuté avec le médiator. C'est la combinaison du "trémo" et du "détaché" résultant des exercices spéciaux de la page 63. Il faut donc les travailler à nouveau et spécialement en doubles-croches comme il est expliqué au 133 et ensuite les faire de la manière suivante:

154.-The Solo

or how to play a melody and its accompaniment at the same time.

This pretty and artistic style is performed with the plectrum. It is the "tremolo" and "staccato" combined resulting from the special exercises of page 63. So practise them again, and particularly in semiquavers as it is explained in 133 and after continue here in the following way.

154.-Del Solo

ó de la manera de tocar una melodía y su acompañamiento al mismo tiempo.

Este estilo muy gracioso y artístico es ejecutado con la púa. Es la combinación del "trémo" y del "punteado" resultado de los ejercicios especiales de la página 63. Es preciso estudiarlos de nuevo y especialmente en semicorcheas indicado en el 133 y a continuación hacerlo de la manera siguiente:

155.- Exécutez les exercices ci-dessus en triples-croches (ou trémolo) et les notes d'en bas en détaché, ainsi:

155.- Perform the above exercises also in demisemiquavers (or tremolo) and the lower notes in staccato, so:

155.- Ejecutar los ejercicios aquí arriba indicados, en fusas (ó tremolo) y las notas de abajo en punteado, así:

156.- Manière de jouer la RÉVERIE de la page suivante:

156.- Manner of playing the RÉVERIE written in the following page:

161. Comment jouer en "Jazz"

Le "Jazz" en ce qui regarde la Banjoline, est la manière de varier le rythme de tout ou partie d'un morceau en lui donnant un effet sautillant ou syncopé. Ce style fut introduit par les Américains des États-Unis dans l'exécution des « One-steps » et plus spécialement des « Fox-trots », danses très en vogue actuellement, pour y donner plus de vie et plus d'entrain.

Pendant notre longue carrière nous avons vu passer bien des façons de jouer la musique en vogue. La dernière était le style tzigane.

Anssi nous nous demandons si le "Jazz" va durer encore longtemps et s'il mérite d'être traité longuement ici. Nous croyons, que de toutes façons il durera aussi longtemps qu'on dansera le fox-trot. Nous pensons donc intéresser les élèves en donnant ici quelques exercices et quelques exemples pratiques de "Jazz" et la manière de l'appliquer.

Ayant joué longtemps dans les Orchestres Américains pendant et après la guerre, nous appliquions le "Jazz" seulement à la 2^e reprise de Refrain ou Chorus des Danses, Chansons, Fox-trots, etc., que nous jouions.

Par ailleurs nous voyons des Orchestres Américains ou Anglais qui emploient le "Jazz" à tous les morceaux qu'ils jouent. On les appelle "Jazz-bands".

Si ce style convient très bien aux One-steps et Fox-trots, il n'est pas de même pour les Valses, Tangos, Schottisches, etc.

Le "Jazz" consiste principalement en coups spéciaux de médiator sur une ou plusieurs cordes.

L'élève doit donc bien travailler les exercices pour acquérir ces coups et ensuite les appliquer aux morceaux comme il est indiqué dans les exemples qui suivent.

Le "Jazz" doit être appliqué régulièrement aux notes longues ou assez longues et jamais aux notes courtes ou passages rapides afin de ne pas altérer le motif.

161. How to play in "Jazz" style

"Jazz" music as applied to the Banjoline is the manner of varying the rhythm of the whole or a part of a piece as to give to it a skipping or a syncopated effect.

This style was introduced by the Americans of the United-States in their playing of One-steps and specially Fox-trots (dances which have become very popular) in order to give to them a more lively and tilting movement.

During my long professional career I have seen, at different periods many changes in the style of playing music in vogue, the last one being the tzigane style.

So, I am wondering if the "Jazz" will last long enough for me to treat this subject very widely. However, I am sure it will remain, as long as the Fox-trot is in vogue; so I am giving here some exercises and practical examples which apply to the "Jazz". I hope to please and instruct the pupil who is interested in this style of playing.

I have had much experience in playing with American Jazz Orchestras during and after the war and they usually applied the Jazz proper to the Chorus or Refrain of the Fox-trots, One-steps and Songs, in the repeat (2nd time).

Of late it has become usual in English and American Orchestras to "Jazz" the entire numbers they play. Such Orchestras are called "Jazz-bands".

This style of playing goes well to One-steps and Fox-trots, but it is not suitable for Waltzes, Tangos, Schottisches, etc.

Jazz playing is mainly acquired by special use of the plectrum on one or more strings.

The pupil should practise well the following exercises, in order to get these strokes and then to adapt them to the Fox-trots as it is shown in the following examples.

Jazz playing should be applied as a rule to fairly long notes and never to short notes or rapid passages, not to alter the melody.

161. Manera de tocar el "Jazz"

El "Jazz" en lo que concierne á la Banjolina es la manera de variar el ritmo de una pieza ó de parte de ella dandole un efecto salteado ó sincopado.

Este estilo ha sido introducido por los Norte-Americanos en la ejecucion de los Onc-steps y más especialmente de los Fox-trots, danzas muy en moda actualmente, para darle asi más vida y color.

Durante mi larga carrera he visto sucederse varias modas en el estilo de tocar la música en boga. La ultima fue el estilo « tzigane ».

Y hoy me pregunto si el "Jazz" durará lo bastante para que merezca ser tratado largamente aquí. Yo creo que de todos modos durará el tiempo que se baile el Fox-trot, así que pienso, que interesará á los alumnos el presentarles aquí algunos ejercicios y ejemplos prácticos del "Jazz" y la manera de aplicarlos.

Habiendo tocado largo tiempo en las Orquestas Americanas (durante y despues de la guerra) nosotros aplicábamos el "Jazz" en la 2^a repetición del Refrán ó Coro de las Danzas, Canciones, ó Fox-trots, etc., que tocábamos.

Sin embargo hay Orquestas Inglesas ó Americanas que emplean el "Jazz" en todas las piezas que tocan. Se las llama "Jazz-bands".

Si este estilo conviene á los One-steps y Fox-trots, no sucede lo mismo con los Valses, Tangos, Schottises, etc.

El "Jazz" consiste principalmente en golpes especiales con la « púa » sobre una ó varias cuerdas.

El alumno debe estudiar con atención los ejercicios siguientes para adquirir este golpe y aplicarlo en las piezas como está indicado en los ejemplos que siguen.

El "Jazz" debe ser aplicado regularmente en las notas largas ó bastante largas y nunca en las notas cortas ó pasajes rápidos á fin de no alterar el motivo.

Paris 1921

162.. Exercices de "Jazz"

Travaillez d'abord la ligne à notes simples pour acquérir le coup et ensuite celle à cordes doubles qui est en-dessous.

162.. "Jazz" exercises

Practise first the line in single notes to acquire the stroke and after apply it to the line in double strings which is underneath.

162.. Ejercicios par el "Jazz"

Estúdiese primeramente la linea á notas sencillas para adquirir el golpe y luego la linea á notas doble que es abajo.

c)

d)

The musical score consists of six staves of music. The first two staves are in common time with a key signature of one sharp. The remaining four staves are in common time with a key signature of one sharp. Staff 1 shows eighth-note patterns. Staff 2 shows sixteenth-note patterns. Staff 3 is labeled 'e)' and shows eighth-note patterns with 'simile' markings above the notes. Staff 4 is also labeled 'e)' and shows sixteenth-note patterns with 'simile' markings. Staff 5 shows eighth-note patterns. Staff 6 is labeled 'f)' and shows sixteenth-note patterns with 'simile' markings.

163. Appliquez les précédents coups
a ou b ou c aux Fox-trots syncopés.
Exemple:

Ecrit. Written Escrit. Jazz etc.

This block compares 'Written' notation with 'Jazz' notation. The 'Written' notation is in common time with a key signature of one sharp, featuring quarter and eighth notes. The 'Jazz' notation is in common time with a key signature of one sharp, featuring sixteenth-note patterns. The 'etc.' section shows a continuation of the sixteenth-note pattern.

164. Appliquez les précédents coups
d ou e ou f aux Fox-trots simples.
Exemple:

Ecrit. Written Escrit. Jazz

This block compares 'Written' notation with 'Jazz' notation. The 'Written' notation is in common time with a key signature of one sharp, featuring quarter and eighth notes. The 'Jazz' notation is in common time with a key signature of one sharp, featuring sixteenth-note patterns.

Voyez à la page suivante le Fox-trot
"EVERYBODY IN PARIS" que vous pouvez
jouer en "Jazz" en suivant nos préce-
dents conseils.

See next page the Fox-trot "EVERY-
BODY IN PARIS" which you can "Jazz"
according to the preceding rules.

163. Apliqueese los precedentes gol-
pes a, b ú c á los Fox-trots sincopa-
dos. Ejemplo:

164. Apliqueese los precedentes gol-
pes d, e ú f á los Fox-trots sencillos.
Ejemplo:

166.. Observation

Le "Jazz" fait plus d'effet lorsqu'il est appliqué sur deux ou trois cordes à la fois. Mais cela ne peut pas être fait à tous les passages d'un morceau. Il est préférable de consulter la partie de Piano et voir quelles notes on pourrait jouer en doubles ou triples cordes. Pour bien faire il faut beaucoup de pratique et d'expérience.

167.. Le "Jazz" des One-steps
est moins compliqué que celui des Fox-trots, parce que les "One step" étant joués dans un mouvement plus vif et les notes par conséquent plus brèves on peut à peine le varier. On pourra parfois jouer les croches et les noires en doubles-croches et aux notes plus longues appliquer les coups suivants:

Tempo de One-step

168.. Jouez en Jazz l'One-step suivant:

168.. Play in Jazz style the following One step:

LE DERNIER MÉTRO

ONE-STEP

S. LÉONARDI

166.. Observation

El "Jazz" hace más efecto cuando es aplicado sobre dos ó tres cuerdas á la vez. Pero esto no se puede hacer en todos los pasajes de una pieza. Es preferible consultar la parte de piano y ver que notas se pueden tocar en dobles ó triples cuerdas. Para hacerlo bien hace falta mucha práctica y una larga experiencia!

167.. El "Jazz" en los One-steps

es menos complicado que el de los Fox-trots, porque los One-steps como se tocan en un movimiento más vivo, las notas por consiguiente son más breves y apenas si se puede variar. Se podrá algunas veces tocar la corcheas y las negras en semicorcheas y á la notas más largas se pueden aplicar los golpes siguientes:
